

SERVICES WE PROVIDE

SITE SURVEY:

To provide more accurate quotation, our Project Managers can perform an onsite survey to determine how we can best service you.

INSTALLATION:

Our in-house installation team ensures your Sonicu monitoring system is fully operational and performing to Sonicu standards.

CALIBRATION:

SNAP Calibration is the most cost effective way to keep all probes in line with compliance standards. Access certificates easily from the web.

DIAGNOSTICS:

To ensure your system is fully optimized we provide many online reports so you can ensure your monitoring system is performing as intended.

CUSTOM SOLUTIONS:

If you have any custom application requests, we can hand-tailor a solution that satisfies all of your monitoring and reporting needs.

SUPPORT:

Our robust knowledge-base is accessible 24/7, and our award-winning technical support team can assist you, free of charge.

TRAINING:

On site or remote, our comprehensive training program ensures that all users are able to fully utilize the SoniCloud platform.

CLOUD HOSTING:

Sonicu's monitoring platform is 100% Cloud-based. No additional hardware or IT resources required.
